

Supporting Client Success Leading Financial Firm Benefits from Scalable Staffing Solutions

Global Investment Management Organization turned to Solugenix to fill its many Finance and Accounting Positions

The Challenge

With assets exceeding one trillion dollars, this US-based global investment management firm turned to Solugenix's staffing services to fulfill its growing demand for highly specialized Finance and Accounting positions across the US. The client needed highly qualified candidates with ample experience in the mutual fund industry and degrees from top universities. Candidates needed to possess strong communication skills in order to identify and meet internal requirements. The placement models included short and long-term contracts from 6 to 18 months, as well as full-time placements.

The Solution

As the preferred partner for this project, Solugenix Professional Staffing teams sourced, screened and qualified Finance and Accounting professionals who had the right level of technical and communication skills. Some of the key roles fulfilled included Portfolio Manager, Fund Accountant, Fixed Asset Accountant, Derivative Analyst, and Senior Financial Analyst.

Assignments were flexible in order to meet changing resource demands associated with new project implementation.

Benefits

The Solugenix Professional Staffing Services solution created a number of benefits:

- The client's time spent recruiting was reduced by 80%, giving the client's team more time to focus on their core business objectives
- Solugenix's just-in-time staffing model facilitated a savings equivalent to two months' salary, approximately \$40k, per resource
- In an eight-month period, Solugenix provided twenty-eight personnel for finance and accounting positions
